TO OUR CUSTOMERS

WE LIST 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seed is grown especially for us by the most reliable growers in various parts of the United States, so that it may be produced in the section that is best suited for the variety. For example, our Lima Bean seed is grown in California, Beans in Idaho, Cantaloupe in Colorado, Corn in Connecticut, Spinach and Turnip in the State of Washington, Peas in Wyoming, Onion Sets in Illinois, etc. Contracts are placed twelve to eighteen months before the seed is to be delivered or before the grower plants the seed stock. This is done to secure only fresh and highest-quality seeds for our customers.

We have a self-service seed department. All of the leading varieties of seeds will be packed in packets, ounces, $\frac{1}{4}$ pounds, $\frac{1}{2}$ pounds and pounds. $\frac{1}{2}$ pounds and pounds will be packed in transparent polyethylene bags. This self-service department is in addition to our counter service. This enables us to give faster and better service.

Fifty-eight years' experience as seedsmen and commercial growers has taught us that only the best strains are worthwhile. We endeavor at all times to secure the highest-quality seeds obtainable and to offer them at minimum prices. All seed is carefully tested and none is allowed to be sold that we know to be poor in germination or in any way inferior.

Our store is located at the corner of Atlantic and Center Avenues opposite the Penna.-Reading Railroad Station at Sewell, N. J., twelve miles south of Camden. We welcome customers and friends to our store and shall be glad to show our seeds and plants.

TERMS

Seeds and Supplies: Cash with order, otherwise shipment will be made C. O. D. Remittance can be made by Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants and bulbs

pure and reliable, we give no warranty express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. Therefore in no case will Orol Ledden & Sons be liable for more than the amount actually paid us for seeds, plants or bulbs. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalog are subject to change without notice.

OROL LEDDEN & SONS

SAFE DELIVERY GUARANTEED. All seeds are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign and mail to us at once, and more seeds will be forwarded or money refunded.

Ledden's ANNUAL and PERENNIAL Flower Seeds

NEW INTRODUCTIONS

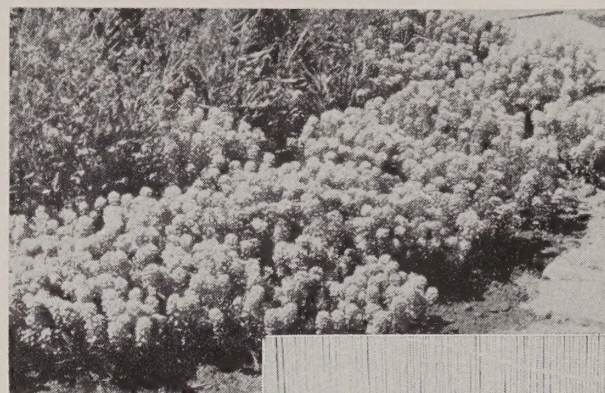

DIANTHUS, Bravo. All-America Winner for 1962. A brilliant scarlet-red—extremely showy, with single flowers of good substance. They are produced very freely on a plant averaging 10 inches in height. Growth is mound-like. For edgings, low borders, porch boxes. Also nice to cut. Pkg. 50 cts.

ORNAMENTAL SWEET BASIL, Dark Opal. All-America Winner for 1962. This is the first ornamental foliage plant to win an All-America award. The flower spikes are inconspicuous, but the whole plant is ornamental. It is a dwarf, compact grower. For flower borders, vegetable and herb gardens. Pkg. 50 cts.

SALVIA, Red Rocket. Medium early flowering. Compact, bushy plants, with densely packed spikes of a dazzling scarlet. 14 inches tall, only slightly taller than St. John's Fire. Pkg. 25 cts.; 1/4 oz. \$1.00; oz. \$3.00.

ZINNIA, Old Mexico. All-America Winner for 1962. Distinctive and striking, double flowers about 2 1/2 inches across, on strong stems. Deep red base overlaid with golden yellow. The erect, bushy plant—14 to 18 inches high—is a profuse bloomer. For cutting and garden display. Pkg. 45 cts.; 1/4 oz. \$1.75; 1/2 oz. \$3.00.

ZINNIA, Red Man. All-America Winner for 1962. A Giant Cactus-flowered Zinnia with airy, lacy-looking flowers on a bushy, 15-inch plant. The bright orange-scarlet flowers with delicately quilled petals are up to 5 1/2 inches across and 2 inches deep, on long, sturdy stems. Pkg. 50 cts.; 1/4 oz. \$1.50; 1/2 oz. \$2.75.

BIRD Vita-Bands and Pots

One of the ways to grow healthier, sturdier crops that mature early and command top prices is through the use of these famous plant bands. Nutrient-treated Vita-Band 10 aids plant growth from seedling stage through transplanting time. Nutrient-treated Vita-Band D is set with the plant, thus eliminating the possibility of transplanting shock.

Planet Jr. Edger No. 2

The Planet Jr. Grass Edger assists wonderfully in producing an attractive walk. Mailing weight 4 lbs. \$3.50 (postage extra).

We carry in stock a full line of attachments and steels for Planet Jr. tractors, wheel hoes and horse-drawn implements.

Since 1871 Planet Jr.'s specialty has been vegetable growing tools. There are two outstanding reasons for buying Planet Jr. implements. First—they do their work in the most efficient way. Second—they keep on working long after cheaper and less efficient equipment is worn out and discarded.

LEDDEN'S LAWN GRASS MIXTURES One pound sows 250 square feet

Evergreen Lawn Grass. This is our own mixture in which we use only recleaned high-grade permanent grasses. Only the best fine-leaved grass varieties are used in this mixture to make an even thick mass of sod giving a smooth velvet lawn. Analysis: Kentucky Blue Grass 75%, Redtop 10%, Pennlawn Fescue 15%. Lb. 89 cts.; 5 lbs. \$4.25; 10 lbs. \$7.95; 25 lbs. \$17.50.

Ludden's Sunny Lawn Grass Mixture. Specially blended for sunny areas. This mixture meets the basic requirements for sunny lawn grass seed recommendations of the New Jersey Agricultural Experiment Station. Analysis: Kentucky Blue Grass 25%, Perennial Rye Grass 15%, Creeping Red Fescue 15%, Redtop 10%, Colonial Bent Grass 10%, Pennlawn Fescue 25%. Lb. 75 cts.; 5 lbs. \$3.50; 10 lbs. \$6.35; 25 lbs. \$14.50.

Ludden's Formula No. 1 (with Clover). Mixed according to the specifications of the New Jersey Agricultural Experiment Station. A very fine lawn grass mixture using only the best grasses and White Dutch Clover. Analysis: Kentucky Blue Grass 55%, Redtop 10%, Pennlawn Fescue 10%, Perennial Rye Grass 10%, White Dutch Clover 5%, Creeping Red Fescue 10%. Lb. 85 cts.; 5 lbs. \$3.95; 10 lbs. \$7.25; 25 lbs. \$15.95.

Colonial Lawn Seed Mixture. Analysis: Perennial Rye Grass 35%, Kentucky 31 Fescue 35%, Timothy 15%, Alta Fescue 15%. 5 lbs. \$1.29; 25 lbs. \$6.25.

It is necessary to use lime and fertilizer at time of sowing. We will be pleased to recommend the quantities necessary.

We use the purest seed obtainable and of the highest germination; however, because each variety of grass seed has a very small content of inert matter, mostly in the form of seed hulls, there will be a slight variation of content from the above analyses. The analysis given on the grass seed bag will, therefore, read slightly different from the analysis stated above. However, the basic mixtures as described above will be the same.

Jersey Green. This mixture meets the basic requirements of the New Jersey seed recommendations of the New Jersey Agricultural Experiment Station. A high-grade Blue Grass mixture to make a lawn of good appearance that will take wear too. Analysis: Merion Blue Grass 25%, Kentucky Blue Grass 35%, Penn Lawn Fescue 30%, Redtop 10%. Lb. 98 cts; 5 lbs. \$4.75; 10 lbs. \$8.95; 25 lbs. \$19.95.

Merion Blue Grass Mixture. This mixture is especially recommended by the Merion Blue Grass Growers Association as a high-grade Merion Blue Mixture. Analysis: Merion Blue Grass 40%, Pennlawn Fescue 50%, Redtop 10%. Lb. \$1.15; 5 lbs. \$5.50; 10 lbs. \$10.50; 25 lbs. \$24.95.

Shady Lawn Grass Mixture. A specially prepared mixture for under shade trees or in shady corners. It meets the basic requirements of the shady lawn grass seed recommendations of the New Jersey Agricultural Experiment Station of Rutgers University. Analysis: Poa trivialis 35%, Creeping Red Fescue 30%, Perennial Rye Grass 15%, Redtop 10%, Pennlawn Fescue 10%. Lb. 79 cts.; 5 lbs. \$3.75; 10 lbs. \$6.95; 25 lbs. \$15.75.

Vacant Lot Lawn Grass. Our own mixture, composed entirely of perennial grasses with wider blades. Often Perennial Rye Grass and Timothy will stand where other grasses fail. Analysis: Perennial Rye Grass 50%, Kentucky 31 Fescue 30%, Timothy 20%. Lb. 40 cts.; 5 lbs. \$1.75; 10 lbs. \$3.00; 25 lbs. \$6.49.

Ludden's Lawn Mixture for Dry, Infertile Soils. This mixture meets the basic requirements of the dry, infertile soils lawn seed recommendations of the New Jersey Agricultural Experiment Station. Analysis: Creeping Red Fescue 35%, Perennial Rye Grass 15%, Redtop 5%, White Dutch Clover 5%, Alta Fescue 15%, Chewings Fescue 25%. Lb. 60 cts.; 5 lbs. \$2.75; 10 lbs. \$5.00; 25 lbs. \$11.75.

We will mix any lawn grass mixture of grass and clover seed to the customers' specifications.
